

Steep trails, loose gravel, and leaves can make traction difficult. Hiking boots and sun protection are highly recommended.

Be aware of mountain lions, pigs, snakes, bobcats, coyotes, tarantulas and other wildlife that you may see in the hills.

In case of emergency call Public Safety at 408-223-4665

and provide the name of your trail and the nearest junctions. By using these trails you assume all risk of injury or death.
